In response to the Office Action dated April 24, 2002, please  
amend this application as follows:

IN THE SPECIFICATION

Page 1, please replace the paragraph beginning at line 10 with  
the following rewritten paragraph:

B<sup>1</sup>  
The invention relates to an electric motor having a stator and a  
rotor, with the rotor having at least one permanent magnet and a  
rotor shaft being mounted radially and axially, and with the  
stator having at least two coils which produce a rotating  
magnetic field, by means of which the rotor can be driven, when
